

Create And Configure IBM Cloud Service Create IBM Watson IoT Platform And Device

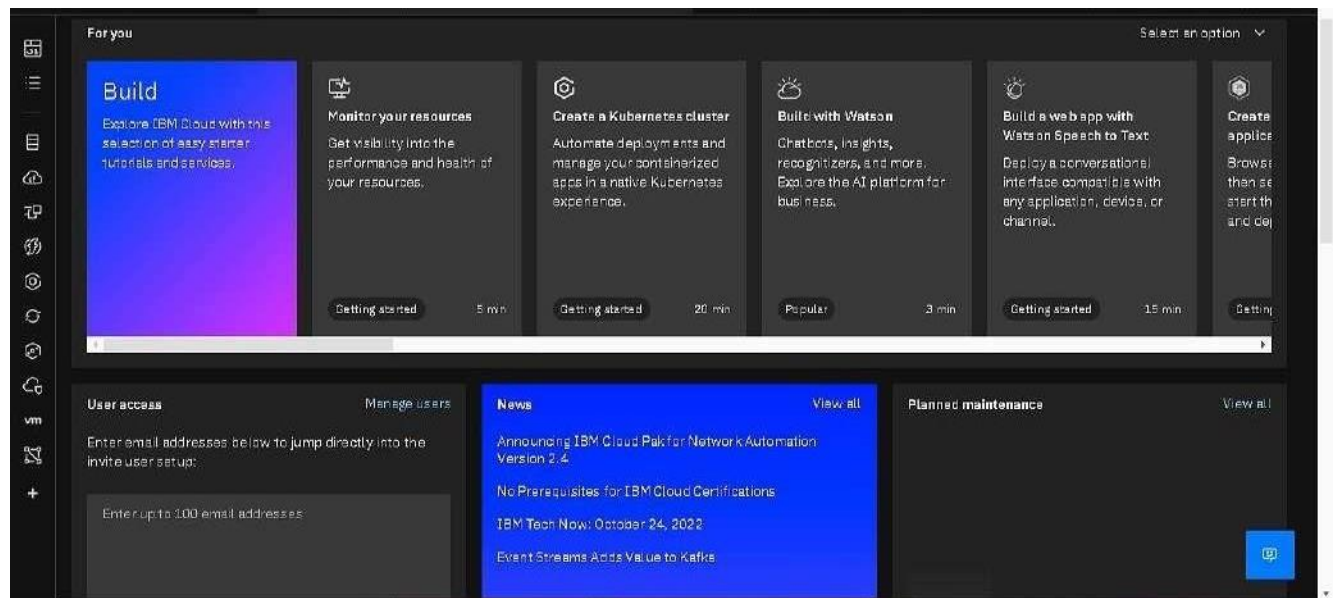

Team ID	PNT2022TMID38886
Project Name	IoT Based Safety Gadget For Child Safety Monitoring & Notification
Maximum Marks	4 Marks

STEPS

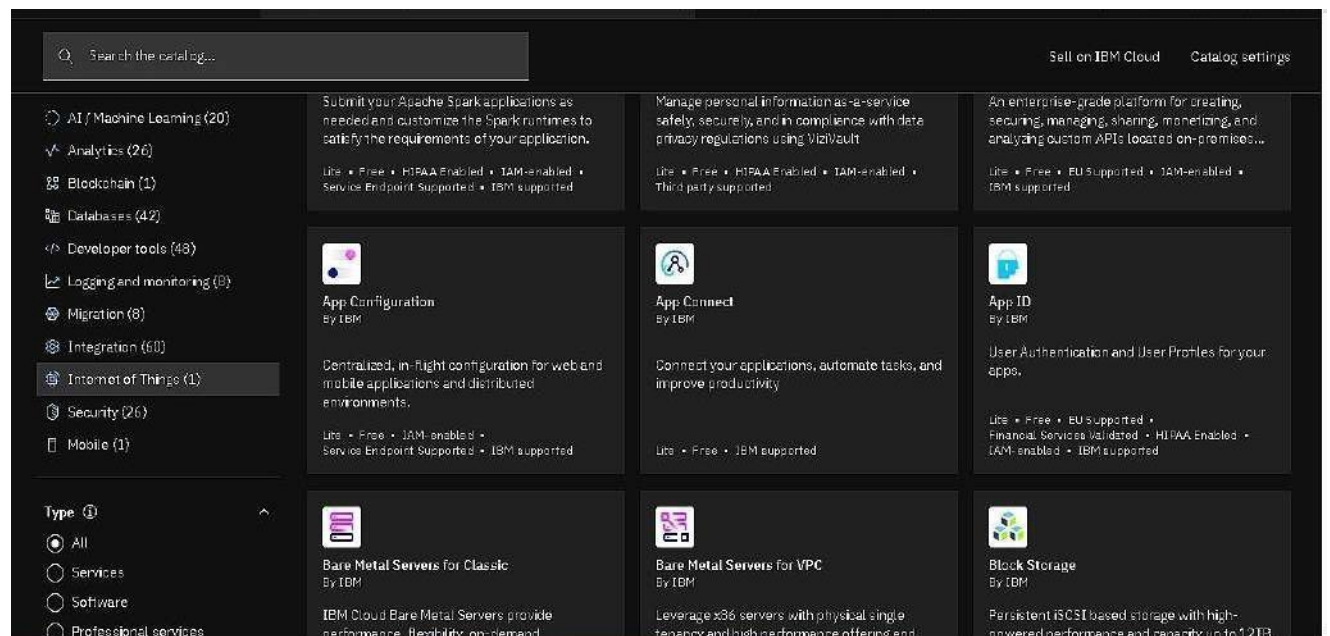

1. Firstly create an IBM cloud account with IBMid and password

2. Home page of IBM cloud

3. Click on the catalog on the top

4. Click on IoT in the category mentioned

Catalog /

Internet of Things Platform

This service is the hub of all things IBM IoT, it is where you can set up and manage your connected devices so that your apps can access their live and historical data.

Lite

Features

- Includes up to 500 registered devices, and a maximum of 200 MB of each data metric
- Maximum of 500 registered devices
- Maximum of 500 application bindings
- Maximum of 200 MB of each of data exchanged, data analyzed and edge data analyzed

Current usage

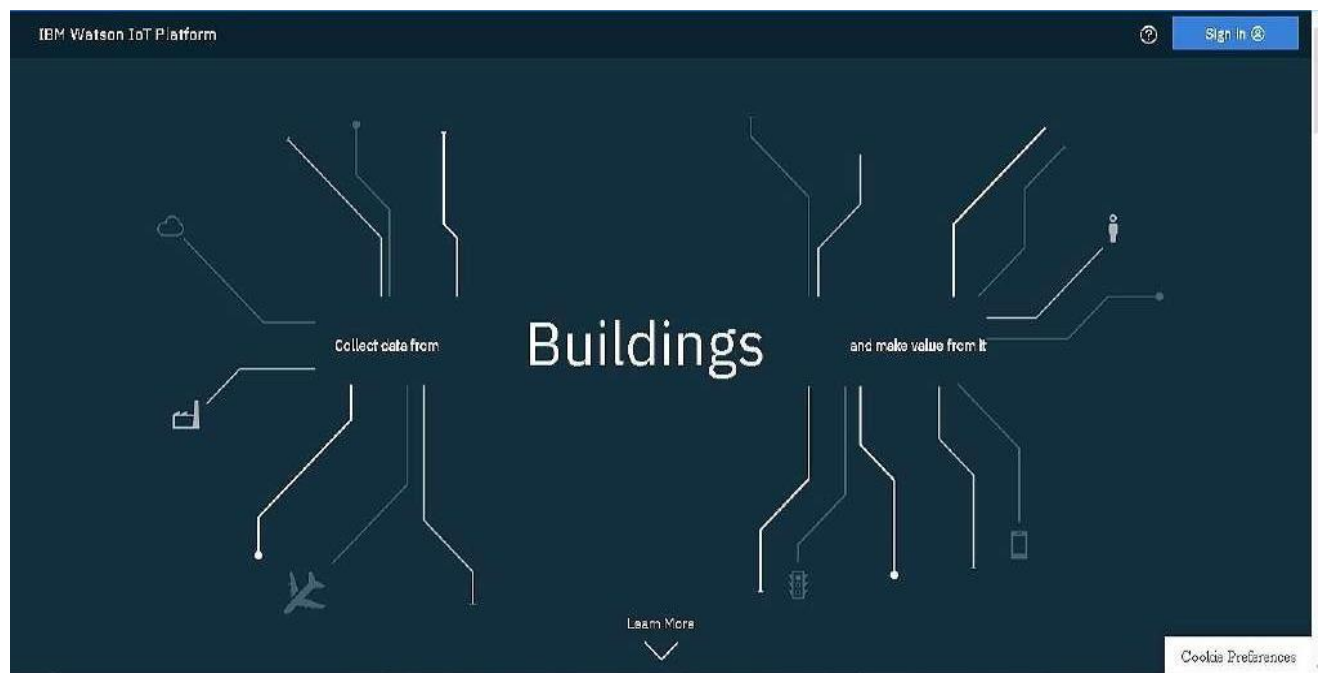

N/A

Lite plan services are deleted after 30 days of inactivity.

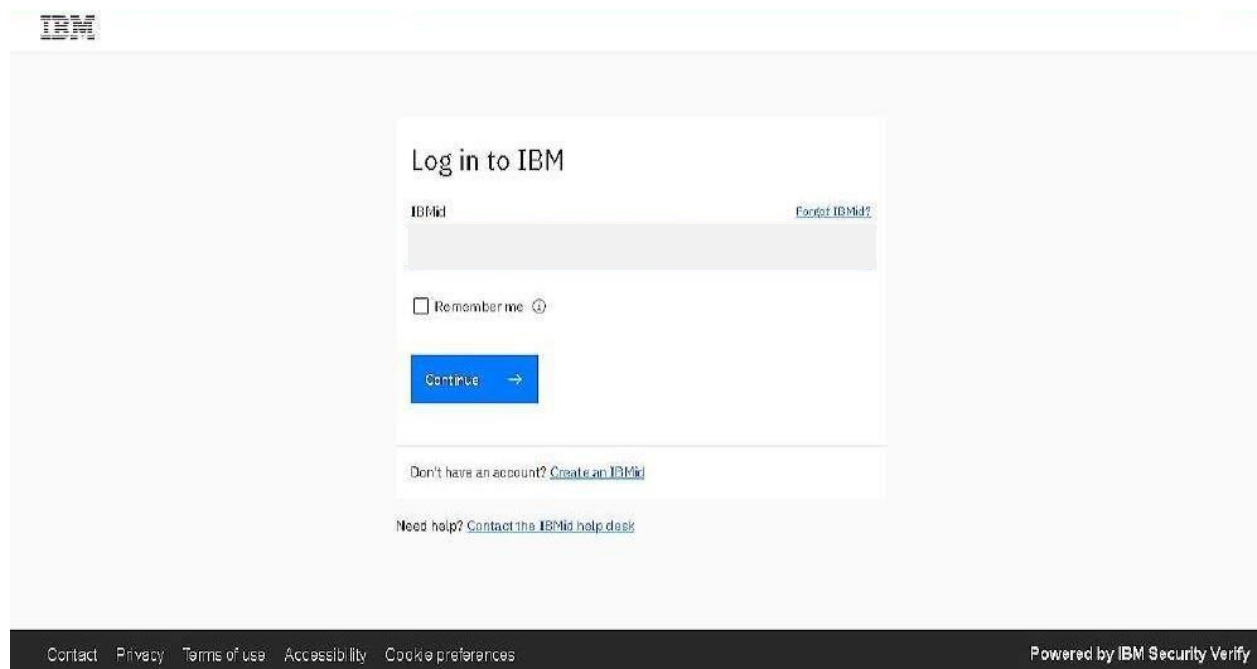

Change pricing plan

Plan	Features	Pricing
Lite	Includes up to 500 registered devices, and a maximum of 200 MB of each data metric	Free

8. Clicking on the launch button in the manage tab, it will open to this

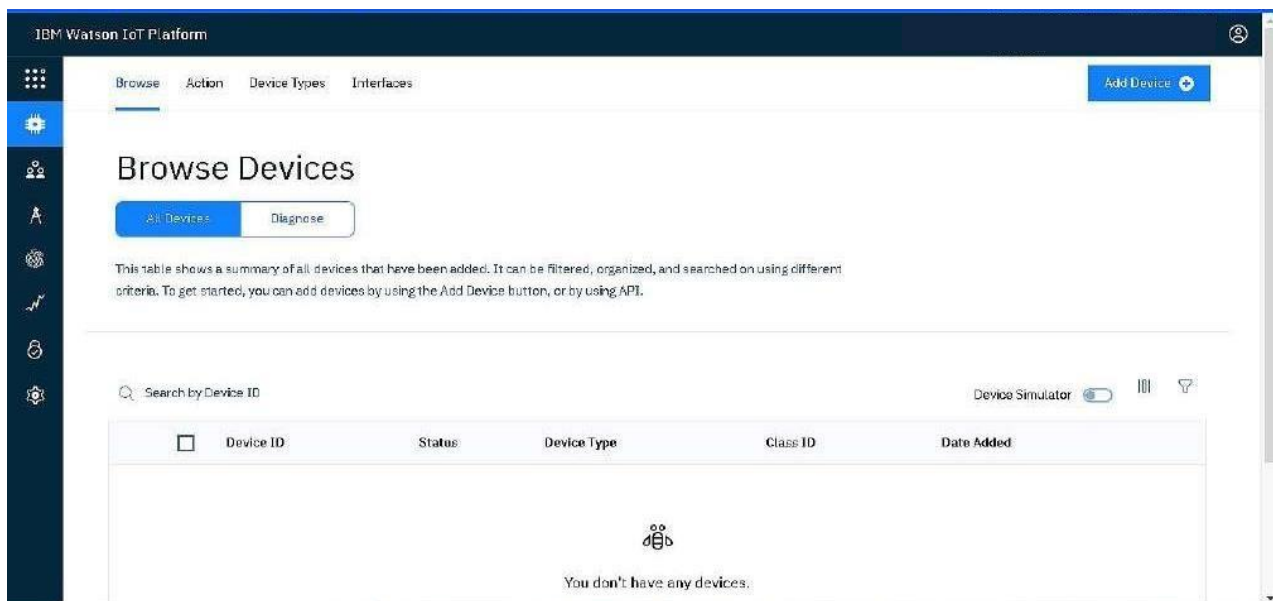

9. Enter the details to sign in to the Watson Cloud to create a device

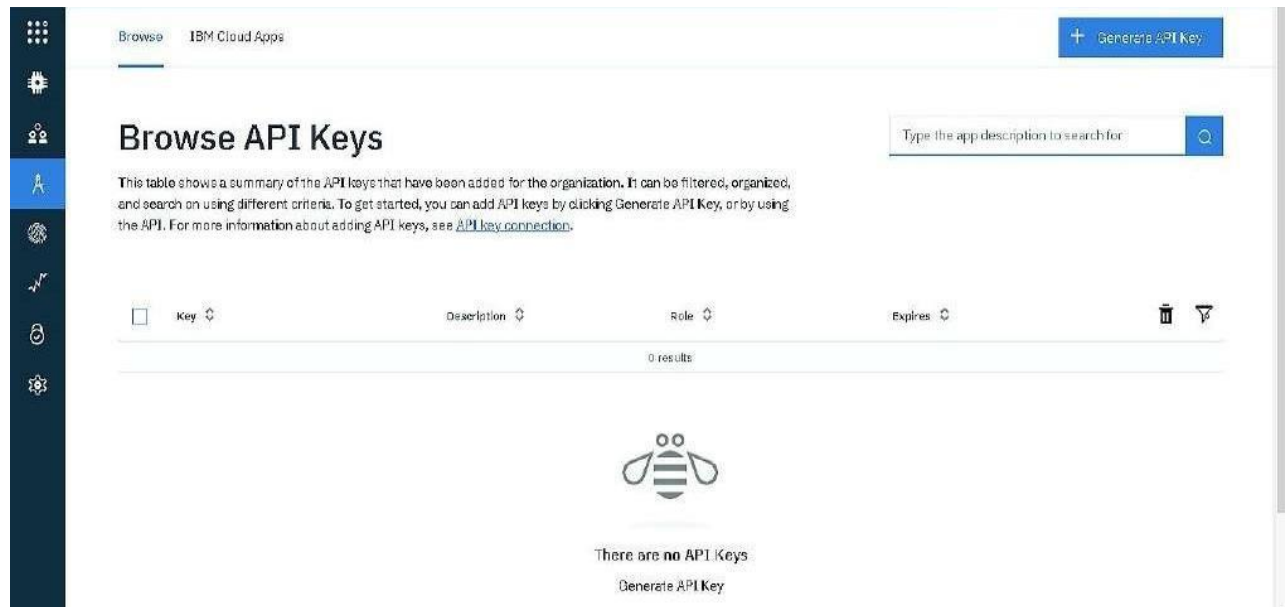

10. Once logged in the name will be displayed and it goes back to the first page

11. And again clicking on the launch button will open this tab, the device will help in the creation of the devices, the addition of devices, and the display of details of the devices

12. This tab is used when you want to connect to some other platform and to integrate with other services.

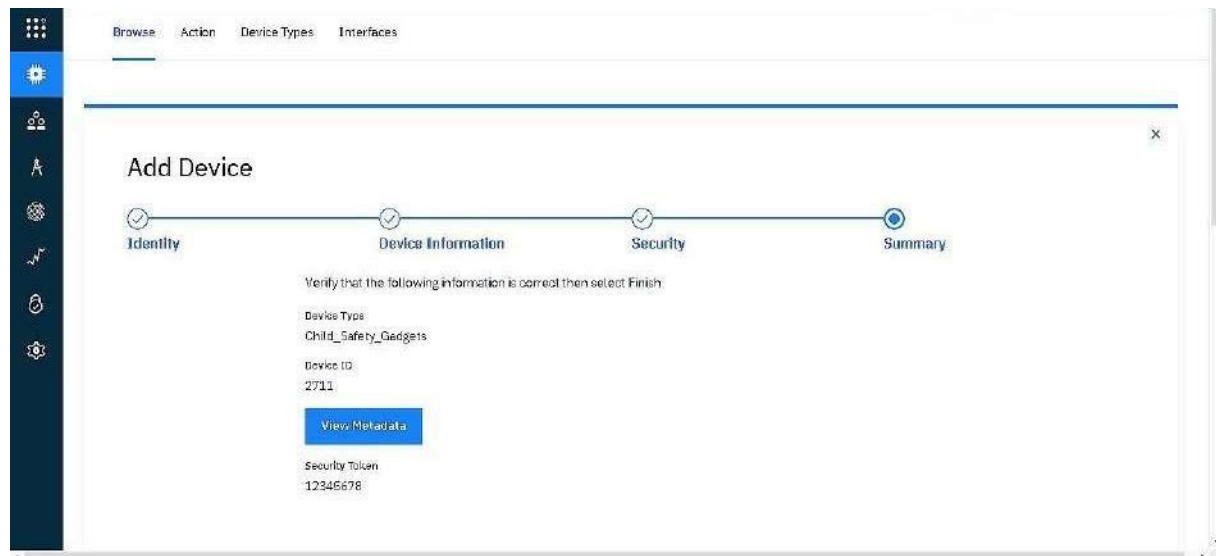

13. Click on the device tab and click on the add device button, then give the device type and device id and click next

The screenshot shows the 'Add Device' form in the 'Device Types' tab. The form has a progress bar with four steps: Identity, Device Information, Security, and Summary. The 'Identity' step is currently active. Below the progress bar, there is a text prompt: 'Select a device type for the device that you are adding and give the device a unique ID.' There are two input fields: 'Device Type' with a dropdown menu showing 'Select or create a device type...' and 'Device ID' with a text input field showing 'Enter Device ID'. At the bottom right, there are 'Cancel' and 'Next' buttons. Below the form, there is a 'Browse Devices' section with 'All Devices' and 'Diagnose' buttons.

14. This page to enter extra details and of the hardware

The screenshot shows the 'Add Device' form in the 'Device Types' tab, now at the 'Device Information' step. The progress bar shows 'Identity' as completed and 'Device Information' as the current step. Below the progress bar, there is a text prompt: 'You can modify the default device information and enter more information about the device for identification purposes.' There are two columns of input fields. The left column includes 'Serial Number' (text input), 'Model' (text input), 'Description' (text input), and 'Hardware Version' (text input). The right column includes 'Manufacturer' (text input), 'Device Class' (text input), 'Firmware Version' (text input), and 'Descriptive Location' (text input). At the bottom left, there is an 'Add Metadata' button with a plus icon. At the bottom right, there are 'Back' and 'Next' buttons.

15. Clicking next it goes to the security where we do authentication token id.
16. Clicking on next it goes to the summary of the device then click finish

17. The device credentials will be displayed with all the details
Safe the details of the device as the authentication tokens are non-recoverable and if misplaced then we have to create a new one.

18. Clicking on the device tab we can now see the added device. Clicking on it will display the other details.

It has different tabs like Identity, Device Information, State and login.

Browse Devices

This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API.

Search by Device ID

Device Simulator ☐

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID	Date Added
<input type="checkbox"/>	2711	Disconnected	Child_Safety_Gadgets	Device	Oct 30, 2022 9:00 PM

Items per page: 50 | 1-1 of 1 item

1 of 1 page

Device Details

criteria. To get started, you can add devices by using the Add Device button, or by using API.

Search by Device ID

Device Simulator ☐

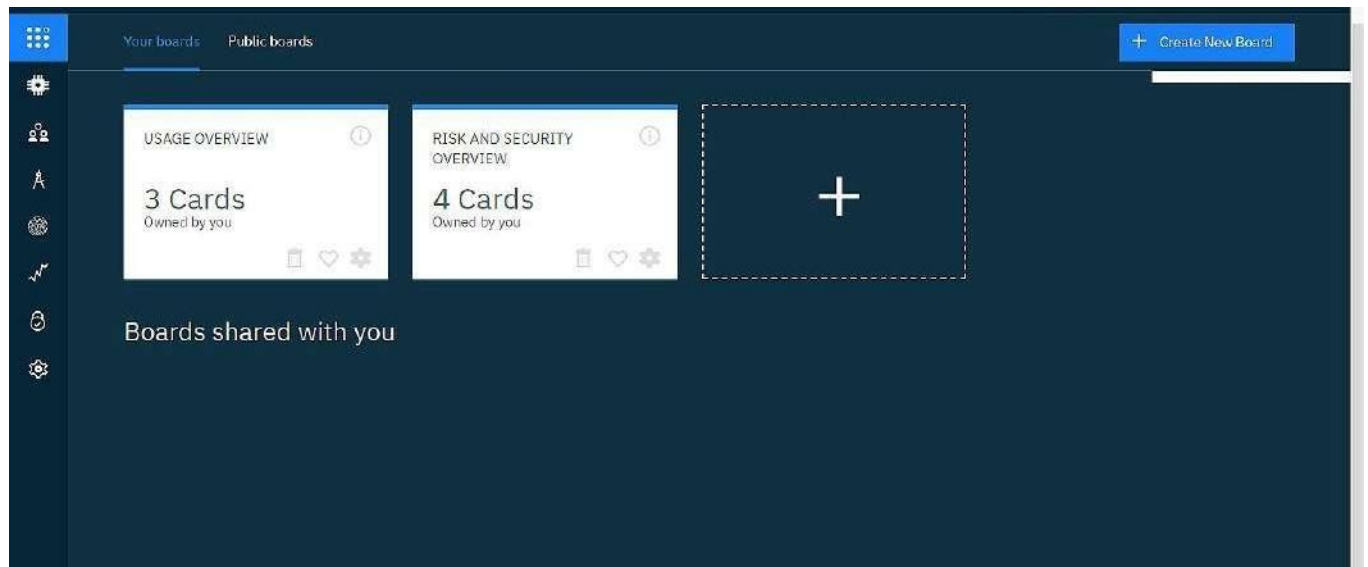

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID	Date Added
<input checked="" type="checkbox"/>	2711	Disconnected	Child_Safety_Gadgets	Device	Oct 30, 2022 9:00 PM

Identity Device Information Recent Events State Logs

Device ID	2711
Device Type	Child_Safety_Gadgets
Date Added	Oct 30, 2022 9:00 PM
Added By	
Connection Status	Disconnected

In a similar way, we can create n number of devices with a 50 per page limit as per the requirement of our project.

19..The Boards will display card for the project.

RESULT:

An IBM Watson cloud for IoT and a device is created
